### Types of Short Term Exchange Programs

#### Family to family exchange

(Homestays Ages 15-19)

##### General Application Pages 3-7 and Supplementary Page A

This program is for individual participants or groups of participants to stay with host families in another country for a few weeks. Most Homestays are reciprocal; for example, a Brazil-Germany exchange may start with a young person from Brazil spending a few weeks in Germany, followed by a visit from a German youth to Brazil. Such exchanges are normally family-to-family or club-to-club. During the course of this program it may be possible to participate in Tours for groups of young people from the same country or several different countries.

#### Youth Camps and Tours

(Ages 15-24 as determined by the organisers of the individual camp or tour)

##### General Application Pages 3-7 and Supplementary Page B

These camps bring together participants from several countries and take place usually in summer. Camps may have themes such as sports, culture, nature, language, computer or participation in a community service project. Some camps provide leadership training and address international concerns. By bringing together international participants, camps promote cultural tolerance and international understanding through friendship. Where possible young people with disabilities will be included in the camp or tour programs, however for the more severely disabled special camps known as 'Handicamps' are organised where participants can be assisted by a carer. In addition to this Application Form further information from participants will be required by the organisers.

Please note that districts may edit this document or insert additional rules if needed to account for local conditions.

Travel is permitted with host parents or for Rotary club or district functions authorized by the host Rotary club or district with proper adult chaperones. ## Short-Term Exchange Program

### Supplemental information about applicants for Youth Camps and Tours

Applicant's Name

NOUGUIER, Guilhem, Christian, Emile

#### Applicant's Personal Background

Please answer the following questions:

What are your free time activities?

My hobbies are rowing (until last year I was practicing rowing 6 hours a week, for five years). In my free time I also like running. With my parents, I go to museums, exhibitions, or classical music concerts. During the weekends or holidays, I enjoy hiking with my parents or swimming and canoeing as well as windsurfing. I also enjoy reading, literature and philosophy.

What are your school, college or university education attainments and vocation?

Last year I finished Highschool and got my Baccalauréat with "very good grade and congratulations from the jury" (over 90% overall). I am now studying engineering in a preparatory class. I am currently the best in my class. Next year I will continue the preparatory class, and then take the competitive examinations of the French "Grandes Ecoles" to go to engineering school for three more years, before graduating and beginning to work.

What are your special interests and accomplishments?

I love mathematics, chemistry and physics. I am taking part in projects such as the International Physics and Chemistry Olympiads. Last year I took national Chemistry Olympiads and I was the 12th in my district. I also convinced 5 of my fellow students to take a mathematics contest together with me. I am passionate about automobile. I read automotive periodicals, visit car dealers, and go to "youngtimers" exhibitions. In 10th grade made a two-week internship with a car dealer, and I accompanied clients when they tested the vehicles. When I was fifteen, I did a 15-day internship at the Esszimmer restaurant (2 Michelin stars) in Munich, where I improved my German and gained independence, because I lived alone in an apartment. I like cooking, and discovering culinary habits from other countries. During my internship in Munich, I worked as an apprentice in the kitchen, and I really enjoyed learning new tricks.

Do you have special skills?

I practised theatre two hours a week during 4 years and I practised oratory in Highschool. I won my Highschool's oratory tournament last year. I am good at running. I took part in a few races: 42'44" (5th in my category) at a 10km race last year but also a 18-km charity race for the construction of a school in Ethiopia.

Could you contribute to entertainment (e.g. play musical instrument etc.)?

I played drums for five years when I was a teenager. I don't practise any more, but I have lots of ideas to contribute to entertainment. For example, I could lead a role-playing game in English, organise a debate club or take everyone running if we have free time. I could also bake a French speciality for the group and explain the recipe.

What is the reason for your programme participation (e.g. choice of specific youth camp)?

A camp with Rotary seems to me to be a great opportunity to experience meeting and sharing between young people from all countries. I had the chance last year to participate in a camp with Rotary in Egypt, and we were interested in archaeology, we traveled the Nile by boat, we discovered local clubs in Cairo and Alexandria. There were more than 90 of us from all countries. This diversity was exciting, and I really liked the values of Rotary. This year, I would like to participate in an exchange with a more limited number of young people, to have even more time to meet each one and build relationships. It will also be an opportunity to discover a new part of the world. In addition, I am very interested in sustainable development and politics and I enjoy exchanging and debating on these subjects. The Copenhagen camp on the theme of "The Scandinavian Way - Environment, Democracy & Architecture" would interest me a lot. It would allow me to learn more about these important topics for our future.

Do you wish to exchange to a particular country? (Please state which country and whether you have any knowledge of it, have visited it before and the reason for your specific interest)

I don't wish a particular country.

What are your future plans and goals?

I want to become an engineer, I would like to work in the field of mobility (automotive, or aeronautics). There are a lot of changes going on with electric cars and low consumption airplanes. Artificial intelligence and robotics are also being implemented. All this could prepare a more sustainable development. I could also be interested in politics, like working in a ministerial office to prepare draft laws regarding mobility. On a personal point of view, I would like to discover the world, maybe work abroad and share good moments with friends.

Other personal remarks.

I am responsible, serious and motivated.
